In the spirit of President Obama's "United We Serve" initiative, I would like to invite each of you to participate in OSP's coordinated volunteer effort benefiting the Food Bank of Central and Eastern North Carolina. We are excited to have the opportunity to work with such a valued partner who serves a population of 450,000 people in 34 North Carolina counties. With the current economic situation impacting virtually every US citizen, we are called to serve those in need of a basic necessity – food.

We ask you consider volunteering for this worthy cause. Whether you choose to volunteer your time, donate food or contribute financially, I want to assure you there is a place for you on this team. You can make a positive impact in the life of a hungry child, a home-bound elderly individual or a working adult who is choosing between buying food or paying rent.

Thank you in advance for what you will give to this project. I know each of you will contribute as you are able.
